6C21-31* Tycoon	6C21-45 Cashmere	6C21-61 Flapper
	6C21-41 Sax	

Notes:

- "Pattern Width" is the trim width on the specification and represents the width of the wallcovering that will be received by the customer.
- "Gauge" is the product thickness measured after the first pattern colorway is produced.
- "Tensile" and "Tear" results are the minimums required by specification WA-101 Wallcovering Association Quality Standard for Polymer Coated Fabric Wallcovering..
- "Nominal Pattern Width" is the expected width yield from one drop on the wall.

*These decorative metallic effect wallcoverings should only be cleaned with mild ingredients such as soap, detergent and water. Stronger, more alkaline household cleaners (ex. Lestoil[®]) have the potential to damage the surface of the wallcovering as does excessive scrubbing.
