**Notes:**

- "Roll Width" is the trim width on the specification and represents the width of the wallcovering that will be received by the customer.
- "Gauge" is the product thickness measured after the first pattern colorway is produced.
- "Tensile" and "Tear" results are the minimums required by specification WA-101 Wallcovering Association Quality Standard for Polymer Coated Fabric Wallcovering.
- "Nominal Pattern Width" is the expected width yield from one drop on the wall.
