

The skin of the sting ray, with its closely packed round beads of calcified nodes, inspired by Jean Michel Frank's richly embellished art deco objects d'art. Evans & Brown use the same technique to create a wallcovering that combines the best of nature with a sleek sophistication that perfectly mimics the sting ray's skin...right down to its spine.

* These decorative metallic wallcoverings should only be cleaned with mild ingredients such as soap, detergent and water. Stronger, more alkaline household cleaners (ie. Lestoil®) have the potential to damage the surface of the wallcovering along with excessive scrubbing.
